Comment on strengths and weaknesses of the course	Gave us options about how our final grade was going to be calculated (optional homework to boost average). I felt this was a great way to be flexible with different students.

Comment on strengths and weaknesses of the instructor	Dr. Massari is one of the smartest teachers I've had the pleasure to learn from. Dr. Massari would also deliver a joke every now and then to keep the class engaged.
Comment on strengths and weaknesses of the course	My only quarrel with the course is the time the course started, but that's technically my fault and I am the one to blame for missing several classes due to oversleeping.

Give suggestions on how the course or how the instruction could be improved.

Thank you Dr. Massari for being passionate about economics and teaching it with some humor. The only thing that could maybe improve the instruction is the pacing when you speak/teach. Sometimes I find myself nodding off, but that could just be me.
